

Street Sports Association Equality and Disability Policies

Equality Policy (Summary)

Street Sports Association is committed to ensuring affiliates are offered equal rights and opportunities. This commitment applies to all aspects of affiliation and membership.

Our equal opportunities strategy:

- covers all aspects of anti-discriminatory practice
- is monitored regularly

We will:

- provide equal access to all aspects of education, irrespective of class, race, sex, age, sexual orientation or previous educational achievement
- ensure that disabled people, including those with learning difficulties, are treated fairly
- make all reasonable adjustments and provisions to ensure that disabled people are not substantially disadvantaged.

We aim to provide an atmosphere which:

- respects cultural diversity
- helps affiliates and members gain a positive image of themselves at all levels of achievement.

We believe that in such a caring community affiliates and members will gain the skills, knowledge and understanding to make them critically aware of what they see, hear and read.

Disability Statement

SSA is open to all who can benefit from, and qualify for, the courses offered. This includes anyone with learning difficulties or physical disabilities or both.

Affiliates with learning difficulties or physical disabilities are encouraged to take up the opportunities that all affiliates enjoy and to become fully integrated in to the Association.

Coaches are responsible for meeting any difficulties in learning of which they are aware.

We make appropriate help and support available during our courses and events.

There is disabled access to the whole site.
